Objective

Experienced Web Developer seeking opportunity to bring knowledge of programming, design, and media to a position with a fast-paced, innovative company.

Experience

Full-Time

Front-End Developer

December 2018-Present

Boston Consulting Group

Chicago, IL

- With a team of other developers and designers, helped develop multiple internal web applications to be utilized by thousands of BCG employees across the globe.
- Using CSS, SASS, and AngularJS, created new and enhanced existing widgets to match the company's design standards.
- Consulted with the UI team to determine feasibility of design enhancements within the constraints of the company's choice of CRM.
- Under an Agile process, assisted in the documentation and scoping of Stories and Defects within 2 week Sprints.

Web Developer

July 2012-November 2018

United Benefit Advisors

Indianapolis, IN & Chicago, IL

- Developed custom skins for corporate websites using responsive strategies with Bootstrap and DotNetNuke in order to improve the user experience.
- Designed, developed, and organized conference mobile app. Provided session schedule, speaker information, presentations, and feedback forms.
- With a team, assisted in the development of UBA's data entry web app. Adopted Angular UI controls to enhance the performance of the application.
- Managed the company's Hubspot account. Discovered how to improve UBA's marketing experience by researching CTAs, workflows, forms, email templates, landing pages, and blog management. Delegated and taught duties to other team members from the Marketing department as the account expanded.
- Assist internal staff and UBA Partner Firms with technical support of proprietary technology tools.

Freelance

Web Production Contractor

May 2011-July 2012

Find8

Lafayette, IN

- Constructed HTML emails to help clients market their brand via email communications.
- Created site maps and wireframes to help clarify and organize the clients' content for production.
- Updated clients' content in their websites using DotNetNuke.

Web Designer/Developer Intern

January 2010-August 2011

Wesley Foundation at Purdue

West Lafayette, IN

- Reconstructed website to increase usability and efficiency.
- Presented to the client different hosting opportunities to save money and resources.
- Designed fliers for service projects to promote the organization's ministries on campus.
